

INTERNATIONAL WHORES DAY 2009

JUNE 5

International Whores Day celebrates the birth of the sex worker rights movement that began in 1976 in Lyons, France. In 2009, more than 30 years on, South Australian sex workers are still fighting against discrimination, criminalisation and victimisation. This year, please join sex workers, other sex industry employees, health and welfare workers, supporters, friends and families, to show your support for sex workers in South Australia as we continue to fight for our human rights.
